Q.4. Read the following passage and answer the questions. **4**

Libraries are the store houses of knowledge and information. Library science is very closely related to Management Science, Information Technology and the field of Education. Libraries perform various tasks like collecting books, arranging them systematically, conservation and preservation of those books, dissemination of information sources etc. Many of these tasks are completed with the help of computerised systems. To make a book available to a reader as per his requirement is the most important aspect of Library management. The Library at Taxila University (5th century BCE – 5th century CE), the Royal library of Ashurbanipal (7th century BCE), the Assyrian Emperor in Mesopotamia and the library in Alexandria, Egypt (4th century BCE) are supposed to be the earliest libraries in the world.
